

WE NEED HOPE

CHORUS

We need hope, hope in the morning
Hope throughout the day
We need hope, hope in the middle of the night
To make it through another day (2X)

VERSE

When the mountains stand in your way
And the road is cloudy and grey
That's the time to walk on
With hope burning strong
Through the night on into the day

When the problems are all you can see
And you can't see the wood for the trees
That's the time to walk on
With hope burning strong
Hope will give you the strength to believe
Believe

(CHORUS... VERSE... CHORUS...)

ENDING

Everybody keep holding on, keep holding on
Keep holding on
Everybody, keep holding on, keep holding on
Keep hope burning strong (2X)
